- . For children 15-36kgs (around 4-12years old) use only
- . It must not be used with a two point (lap) belt
- . Never leave your child unattended in the car
- . The booster must not be used without the cover
- . Please use an original cover as the cover contributes the safety of the booster.
- . After an accident the seat may become unsafe due to damage that is not be noticeable immediately. It should therefore be replaced.
- .Ensure that all luggage and objects likely to cause injury in the event of an accident are properly secured.
- .Advice that rigid items of the seat shall not become trapped between a moveable seat or a door of the vehicle.
- .Not to use any load bearing contact points other than those described in the instruction's and marked in the child restraint.

Installation

Place the booster in your car and make sure that it is closely against the backrest of passenger seat

Fasten the seat-belt across your child. The lap section of the belt should sit as forward as possible over the hips and pass under the armrests(1) on either side of the booster ,then buckle up .Adjust the seat-belt to fit your child's body, and remove the slack as much as possible ,and make sure the seat-belt it not twisted.

Your child now is secured. To release your child simply undo the seat belt.

Cleaning the cover

The cover is washable. To remove the cover, put elastic strips away from the hook underneath the booster. Please read the washing label on the cover for the washing instructions.

Do not tumble dry the cover, drip dry only.

To replace the cover, position it on the booster, and put the elastic strips back to the hooks.

Further advice

If you need further help or advice on using or fitting the booster, please contact your local dealer.
